Future Retail Partnerships (Germany)

These retailers currently do **not** provide comprehensive public grocery APIs. Commercial integration would require direct agreements or licensed data access.

Retailer	Potential Integration
REWE Group	Product catalogue, prices, loyalty, promotions
Penny	Product catalogue & promotions
EDEKA	Product catalogue & promotions
Lidl	Product catalogue & Lidl Plus integration
Kaufland	Product catalogue & promotions
Aldi Nord	Product catalogue & weekly offers
Aldi Süd	Product catalogue & weekly offers
Netto Marken-Discount	Product catalogue & promotions
Globus	Product catalogue
HIT	Product catalogue

Recommended Stack for Commercial Launch

Component	Recommended Provider
Maps	Google Maps Platform
Authentication	Firebase Authentication
Database	Firestore
Storage	Firebase Storage
Product Metadata	OpenFoodFacts
Product Data	Retail Partnerships
Weekly Offers	Offerista / Shopfully
LLM	OpenAI or Gemini
Embeddings	Voyage AI

Component	Recommended Provider
Vector Database	Qdrant Cloud
Speech Recognition	Deepgram
Text-to-Speech	ElevenLabs
OCR	Google Vision AI
Email	Resend
SMS	Twilio
Hosting	Google Cloud Platform
Monitoring	Grafana + Sentry

Expected Monthly Cost (Early Commercial Launch)

Service Group	Estimated Cost (€ / month)
Firebase	30
Google Maps	50
LLM API	50-200
Embeddings	20
Vector Database	20
Speech AI	20
OCR	10
Hosting	50
Email	20
Monitoring	0-20
Estimated Total	≈ €250-450/month

Note: Commercial product catalogues, live pricing, and retailer promotions in Germany are typically accessed through enterprise partnerships (e.g., REWE, Lidl, EDEKA) or licensed aggregators (e.g., Offerista, Shopfully) rather than public APIs. Their pricing is negotiated

individually and is therefore listed as **Custom** rather than estimated. This reflects the current state of the German retail ecosystem. :contentReference[oaicite:2]{index=2}
